SUMMARY

Organized and reliable individual with excellent communication skills and a strong work ethic. Experienced in Python full-stack development with a passion for delivering exceptional technical support. Proven ability to collaborate effectively across teams and thrive in fast-paced environments. Eager to contribute to HR activities and initiatives, leveraging strong problem-solving skills and an entrepreneurial spirit.

EDUCATION

Anjuman Institute of Technology and Management, Bhatkal

Bachelor of Engineering in Computer Science and Engineering

June 2019 - May 2023

CGPA: 7.1

Destination Technologies

Python Developer Course

July 2023 – March 2024

STRENGTHS

- Communication: Excellent verbal and written communication skills.
- Organization: Strong organizational and time management abilities.
- Team Collaboration: Effective collaborator with a track record of working across teams.
- Technical Proficiency: Python, Django, JavaScript, React, HTML5, CSS3, SQL.
- Tools: VS Code, MS Office, PyCharm, Git.

PROJECTS

AI & IoT based Automatic Attendance Monitoring and Management System

Developed an innovative system using AI Camera, Cloud, and Deep Learning Algorithms for automatic attendance monitoring. Implemented advanced computer vision techniques for real-time face recognition, leveraging deep learning algorithms for accurate data capture. Utilized IoT devices for seamless data transfer and storage on cloud platforms. This project showcased proficiency in AI, IoT, and cloud technologies, along with strong problem-solving and teamwork skills.

Technical Support Ticketing System

Developed a robust ticketing system for technical support, facilitating efficient communication between users and support staff. Utilized Django framework for backend development and React for frontend interfaces.

Django API Generation

Developed a comprehensive API using Django, enhancing backend functionality and enabling seamless data interactions. Designed and implemented RESTful APIs for efficient data retrieval, creation, updating, and deletion. Integrated authentication and authorization mechanisms to protect API resources. Conducted thorough testing to validate API performance, ensuring reliability and responsiveness. Documented API endpoints and usage to facilitate ease of understanding and integration for developers.

E-commerce Website

Developed a responsive e-commerce platform using HTML5, CSS3, and JavaScript. Designed dynamic user interfaces with product filtering, sorting, and pagination. Integrated third-party APIs for payment processing and user authentication, enhancing the shopping experience. Demonstrated proficiency in frontend development, UI/UX design, and e-commerce functionality.

Spotify Music Player

Engineered a cutting-edge music player using the Spotify API, delivering a seamless streaming experience. Implemented features for dynamic track browsing, playlist creation, and real-time music control. Demonstrated prowess in API integration, data retrieval, and crafting intuitive user interfaces.

EXTRA-CURRICULAR

- FOCI Forum Member: Actively participated in the college FOCI Forum.
- Fundraising and Event Planning: Contributed to fundraising and event planning activities.

PERSONAL TRAITS

- Strong motivational and leadership skills.
- Ability to work both independently and in a group.
- Excellent organizational and time management skills.
